

WHO IS

North Central Wisconsin Donate Life

AND WHAT DO THEY DO ?

North Central Wisconsin Donate Life is a non-profit organization established in 2007 by a group of volunteers comprised of organ recipients and donor families, with the intent of promoting organ, eye, tissue and marrow donation awareness in North Central Wisconsin.

We provide educational materials, speakers, volunteer opportunities and sponsor an annual awareness/fundraising event, the Race '4' Life Scavenger Hunt.

North Central Wisconsin Donate Life also provides support to donor families, transplant recipients, those considering transplant or those still on a wait list, and their families and caregivers.

All funds raised are used for donation awareness programs or programs related to organ, eye, tissue or marrow donation and transplantation that benefit residents of North Central Wisconsin.

Any entity wishing to make a tax deductible contribution can do so by clicking on this link, which will take you to the North Central Wisconsin Donate Life Fund at the Community Foundation of North Central Wisconsin.
